- Qualification cycle and statement cycles are different.
- 10 debit card transactions must appear (post and settle) on the statement by the last day in the qualification cycle to count for that month/statement.
- The direct deposit or ACH automatic debit must appear (post and settle) on the statement by the last day of the qualifications period to count for that month/statement.
- You may want to have more than one direct deposit or ACH automatic debit set up. Some businesses only allow for certain posting days which may not always post during the qualification period every month.
- The Bank cannot control when debit card transactions, direct deposits or ACH automatic payments post and settle to your account. Each Merchant is different.
- Statements will drop on the 11th BUSINESS day of each month. Statements are ready to view in Online Banking the following business day.
- You must set up your statement delivery options right away within Online Banking to “E-Statement” to be eligible for the higher interest rate.
- You must login to Internet Banking at least once every six (6) months to maintain access.
