

BUSINESS ACCOUNT TRUTH-IN-SAVINGS DISCLOSURE

1. Rate Information

The Interest Rate and Annual Percentage Yield (APY) for each account is set forth in the Business Account Rate Disclosure. The APY is an annualized percentage rate that reflects the total amount of interest to be paid to an account based on the interest rate and frequency of compounding. The Business Money Market and Business Interest Checking accounts are tiered rate accounts. Once a balance range is met, the APY for that range will apply to the entire balance. The interest rate and APY for Business Savings, Business Money Market, Business Interest Checking and IOLTA/IRETA Checking are set by Verity Credit Union's Pricing Committee.

2. Interest

Interest is paid at the end of an interest period at the rates set by the Pricing Committee. The interest rates and Annual Percentage Yields set forth in the Business Account Rate Disclosure are accurate as of the effective dates stated.

3. Compounding & Crediting

Interest is compounded and credited monthly. The interest period for all accounts begins on the first calendar day of the period and ends on the last calendar day of the period as set forth on the Business Accounts Rate Disclosure.

4. Accrual of Interest

Interest begins to accrue for deposits on the business day the deposit is made to the account. Interest is calculated by the daily balance method, which applies a daily periodic rate to the principal balance in the account at the end of the day.

5. Share Account Transaction Limitations

For Business Money Market accounts, the minimum check withdrawal amount is \$500.

6. Nontransferable/Nonnegotiable

Your account is nontransferable and nonnegotiable. The funds in your account may not be pledged to secure any obligation of an owner, except obligations with Verity CU.
